

# HEPA PRO MAX DE

## DUST EXTRACTOR

HEPAPro Max DE is a uniquely modular dust extractor offering unparalleled power and efficiency. Equipped with two or three removable backpack vacuums producing 300 or 450 CFM to address a wide range of dust control challenges. All stages of prefiltration are virtually clog-free due to a specially designed cyclonic dust module that captures 99% of the dust. All dust is safely contained and disposed directly into a drop-dust continuous plastic bag. The HEPAPro DE includes a individually tested and certified HEPA filter and is compliant to OSHA's silica dust collection standards.

## KEY FEATURES:

### Power options; two-motor 300 CFM or three-motor 450 CFM

- Plenty of power at your disposal to handle small to mid-size floor grinders, shot blasters and handheld grinding tools.
- Highest CFM available on a 20AMP circuit

### Commercial grade, continuous running, long-life air-thru motors

- Built-in temperature controller to prevent overheating.
- Built-in check valve when airflow is completely blocked to ensure motors always receive adequate cooling air.

### Modular Construction

- Removable backpack vacuums and pre-separator allows for easy transportation, handling, installation, and maintenance.
- Backpack vacuums can be individually removed and used as a portable HEPA Vacuum for cleaning tight, congested areas.

### Cyclonic separator module traps and contains 99% of the extracted dust

- Prevents any loss of suction and airflow.
- Allows for hours of uninterrupted work. No need to purge filters clean using air pulse or other mechanical shaking methods.
- Reduce operational cost. No need to replace expensive cloth, pleated or cartridge prefilter.

### Tested and Certified HEPA Filtration

- Guaranteed clean air exhaust
- Guaranteed 99.97% efficiency at .3 microns

## TECHNICAL SPECIFICATIONS:

Model:	HEPAPro Max DE
Part Number:	125-0300-20
Power Protection:	2 X 120V or 3 X 120V 1000 watt, 10.0 amp motors with built-in overheating
CFM:	2 X 150CFM (300CFM); 3 X 150CFM (450CFM)
Waterlift:	100"
Hose:	2" X 16' Crushproof with two 2" swivel cuffs
Wand:	2" X 49" single-bend aluminum wand
Floor Tool:	17" Wide Floor Brush
Bulk Recovery:	70' continuous drop-down bag (25-30 individual disposable bags)
Weight:	Cart – 67 lbs; Pre-Separator – 82 lbs; Backpack – 20 lbs
Dimensions:	Cart - 22" x 20" x 33"; Pre-Separator - 28" x 25" x 9"; Backpack – 12" X 12" X 29"

# HEPA PRO MAX DE

## Cyronic Dust Module

- Unique cyclonic dust module separates and collects 99% of dust and debris.
- Maintains High airflow and suction.

- 2" X 49" double-bend steel wand
- 17" Floor Brush on wheels with adjustable bristles

## NEED 450CFM?

Hang a third backpack \*

\* Optional

Disposable Paper Bag:  
Part # 122-3228-14

Cloth Bag:  
Part # 122-3230-14

HEPA Filter:  
Part # 127-3321-14
